**NEW TO THE RANGE IN 2016:**

**1) RIESS NOUVELLE: VERDE – A NEW SHADE**

Extra strong moss green cookware for perfect results

**2) RIESS OVEN PAN: NEW SIZE FOR MINI OVENS**

The Allrounder from RIESS

**1) RIESS NOUVELLE: VERDE – A NEW SHADE**

The RIESS Nouvelle range enchants the eye with the use of trendy colours and fashionable designs – and makes cooking and roasting easy with its extra-strong heat-retaining base of steel, glass lid and stainless steel handles. This superior set is perfect for induction hobs because of its steel core, which allows both the base and walls of the pan to heat up fast and evenly and provides optimum heat retention.

Fresh for 2016, Nouvelle has arrived in the new Verde shade, reminding us of a moss-covered forest floor. The RIESS Nouvelle Extra Strong range is now available in Verde (green), Rosso (red), Aquamarin (turquoise) and Arvorio (cream).

**2) RIESS OVEN PAN: NEW SIZE FOR MINI OVENS**

RIESS pans and trays mean crisp results from baking or roasting. The iron core offers optimum heat transfer and heat retention. The glass surface is cut- and scratch-resistant, preserves flavour.

The real Allrounder from the entire range is the oven pan.

The right pan for every occasion - roasting and baking for a large crowd or a few friends. This pan is available in small (22/22 cm) and large (32.80/41.60 cm) with extra-high sides (7 cm), in black, blue, red and light green.

**And NOW AVAILABLE as the “Mini” version in sizes 24.8/20/5.5cm, in black - for use in the popular mini ovens**
